Taurus Utility Consultants only works with The BEST Utility Providers - to find your business THE BEST "FIT" solution

Voipfone was declared the 'Best VoIP' provider in the UK by the internet industry - ISPA - the Internet Service Provider Association; for the second year running.

The internet industry has made it possible for many people to keep in touch, and for many businesses to stay working during this emergency so it's particularly poignant winning it this year.

About Voipfone

Voipfone provides award winning, reliable and inexpensive advanced cloud-based internet phone services specifically designed for small businesses.

Anyone can use Voipfone - you could be a brand-new start-up simply needing a new phone number, a growing business needing a flexible way of supporting new staff or homeworkers, an established business needing to replace an obsolete office PBX or switchboard. Or perhaps you need our free SIP trunks to connect your own VoIP PBX telephone equipment?

With Voipfone, you can move your phones to the cloud and have a maintenance free, cloud-hosted VoIP PBX phone system that can be set up simply, quickly, and cheaply.

ISPA Best VoIP Provider 2020

Voipfone wins again!

The ISPA; The UK Internet Industry Awards; Best VoIP 2020

Voipfone is a multi-award-winning company, having won best UK VoIP provider of the year awards by both ISPA (the Internet Service Providers Association) and ITSPA (Internet Telephony Service Providers Association) many times over the years – including both in 2019.

We are winners of the Institute of Customer Services, Customer Focus Award so you know we'll look after you. No other phone company has ever won this award.

Our most prestigious award is the Queen's Award for Enterprise – Innovation. Few companies receive this award, and we feel very honoured by it.

Voipfone has been providing world-class business phone systems and services since 2004. We are a founder member of the Internet Telephone Service Providers Association (ITSPA) and hold its Quality Mark.
